

TURBOCHARGE WITH COLLEGE CREDIT INFORMATION AND OPTIONAL OPT OUT OF STUDENT INFORMATION DATA SHARING

The Green Bay Area Public School District (District), in partnership with Northeast Wisconsin Technical College (NWTC) and University of Wisconsin-Green Bay (UWGB), is excited to offer ALL District students a unique opportunity to ensure our students will be college, career and community ready, prepared to succeed in our diverse world. The goals for Turbocharge with College Credit (Turbocharge) is ALL students, starting in 2023, will graduate with 15 college credits.

As Turbocharge is implemented throughout the District, your child will experience important benefits. For elementary and middle school students, NWTC and UWGB will offer pre-college programs to encourage a college going culture. In return, NWTC and UWGB will develop a greater understanding of the needs of our students so that our students are able to be successful when moving on to a two- or four-year college/university or enrolling in the military. A goal of Turbocharge is for students to graduate from high school with the equivalent of 15 college credits earned, thereby reducing the overall cost for college. In addition, through Turbocharge, staff at NWTC and UWGB will provide assistance to all students and their families in filling out the application for federal student aid for post-secondary education. More information regarding Turbocharge is available on the District website at: Our District>Turbocharge (http://gbaps.org/our_district/turbo_charge/).

To facilitate the Turbocharge program, consistent with state and federal law, the District has entered into a data sharing agreement with NWTC and UWGB to share data concerning your student, such as high school transcripts, attendance data, enrollment history, gender, ethnicity, race, and assessment scores. All partners to this agreement are bound by federal and state law regarding the privacy and confidentiality of these records and have implemented safeguards to ensure student data is afforded the highest levels of protection. No student data shared for purposes of Turbocharge will be shared beyond the District, NWTC or UWGB to any third party.

While the District, NWTC and UWGB have entered into this agreement and have implemented data privacy safeguards, parents/legal guardians have the right to choose whether student educational records can be shared with post-secondary institutions. If you wish to opt out of the release of your student's educational records for Turbocharge with College Credit, complete one form for each child in your family. For questions regarding this form or to receive copies of the documents listed in this form, please call the District's College, Career and Community Readiness Department at (920) 272-7645. This opt out form will remain in effect from the day it is received by the school throughout the student's enrollment with the District, unless the opt out is rescinded in writing by the parent(s)/legal guardian(s). We encourage you to talk to your child about your decision.

Please return this form ONLY if you want to prohibit the release of your student's educational records to post-secondary institutions for your student's participation in Turbocharge. If this form is not completed, it will be considered that you are allowing your student to participate in the benefits of Turbocharge and consenting to the release of your student's educational records to NWTC and UWGB.

"Opt Out" of Disclosure of Student Educational Records as part of Turbocharge

Student's Legal Name (print): _____ Date of Birth: _____ School: _____

_____ I **DO NOT** consent to the release of my student's educational records to NWTC and UWGB as part of TurboCharge. By completing this form, I understand my student may not be allowed to participate in some activities related to Turbocharge.
