

The Bay Beach Wildlife Sanctuary is a beautiful 600 acre urban wildlife refuge. It is also Green Bay's largest city park. The Sanctuary is open all year with no admission fee. It features live animal exhibits, educational displays, miles of hiking and walking trails and excellent wildlife viewing opportunities.

Hours of Operation
April 15 through Sept. 15 - 8am to 7:30pm
Sept. 16 through April 14-8am to 4:30pm
Trails close at 4:30pm year round

CAMP DESCRIPTIONS

ADVENTURE SCHOOL: Every day is a different adventure; we'll explore trails, ponds and the forest! - **NEW!**

CRAZY FOR INSECTS: We will look high and low for insects of all sorts. Wherever they are, we will find them!

FANTASTIC BEASTS: We're going to delve into the world of the great paleontological, mythological and fantastical animals of books and legends and compare/contrast them to real living animals and wildlife. - **NEW!**

FURS, FINS, FEATHERS: We will introduce your child to coverings and camouflage! They will learn why/how animals, insects and even plants are colored and covered the way they are.

IT'S A HABITAT THING: Discover what different animals need in order to survive.

KIDS KAPERS: Take a hike, dig in the pond and watch the skies. Use all your senses to examine the world around us!

NATURE NUTS: We'll make your child nuts about nature! Each day will start with a different theme and will include activities like hiking, fishing, bird watching, discovering pond life, crafts and a scavenger hunt!

OUTDOOR INVESTIGATIONS: We will look at anything that lives outdoors and learn why these things are important.

POND DISCOVERY: Prepare to discover what lives in a pond! We'll experience pond habitats first-hand by stepping into the water.

RAPTOR RANGERS: Eagles, hawks, owls, and falcons! Kids will have the opportunity to meet many of our resident birds up close.

WILD ADVENTURES: Keeping it wild at the Sanctuary! We will learn about the animals and birds that live here and how we can help them survive in the wild.

YOUNG CITIZEN SCIENTISTS: Is your older child interested in doing research about nature and wildlife? We'll learn about identification methods, what questions to ask, how to conduct an investigation and proper data collection. - **NEW!**
